THE USE OF ARTIFICIAL INTELLIGENCE IN LAW

Roundtable discussion

What is artificial intelligence?
Does it impact you and *your work?*

Have you heard a lot about artificial intelligence–based legal software, but never talked to someone who has actually used it?

You also think there are big risks of using artificial intelligence in law, but you do not know exactly what they are?

Join our roundtable discussion, where three reputable professionals from the US and UK talk about the legal uses of artificial intelligence, its risks, and its impact on the legal profession.
